

Ana Gisele

Lucas

Vitor

Prayer Alert - Update!

Thank you for your prayers for Gisele this past weekend. She is still in danger and it is not known where the father is. The other little boys in this update are Lucas and Vitor, Ana Gisele's brother's. They were not harmed but watched the whole thing happen. While all the children have returned to the House of Hope, they are scarred in several ways.

Gisele has bruises over her face and back and while Lucas and Vitor were not physically beaten, their scars are on the inside. The children's mother was beaten very badly. **Please pray** for their recovery and for the apprehension of the father.

The police here are looking for the father. **Please pray** the police do not practice vigilante justice. Emotions are high in the community and we do not need any more blood shed.

Please pray for the family's continued safety, especially through the month of January when the House of Hope is closed. The children are safe at the House of Hope but it is when they are at home or unattended when they are in the most danger. Thank you so much for your intercession. John
